

Solution Tutorial N°2 :

Exercise 01 :

- 1. No a client can not occupy multiple camping places: the cardinality 1,1*
- 2. Yes a place can be empty: the cardinality 0,1*
- 3. Two clients can not occupy the same place: the cardinality 0,1 in the maximum a place occupied by one client.*
- 4. Yes it can there be a category to which no place corresponds: the cardinality 0,n which means a category can correspond to any or many place.*

Exercise 02 :

- 1. The described situation it is not represented with the given model.*
- 2. No a request support involve only one subjects: the cardinality 1,1.*
- 3. Yes a pedagogical supervisor can oversee multiple students at the same time: a supervisor follow 0,n pupil*
- 4. A teacher can be assigned to more than one support at the same time: the cardinality 0,n a teacher can assigned to any or many request support.*
- 5. No two pedagogical supervisors can not oversee a pupil at the same time: the cardinality 1,1. A pupil followed by only one pedagogical supervisor.*
- 6. Yes two different teachers can specialize in the same subject: the cardinality 0,n. Any ore many teachers can specialized in a subject.*

Exercise 03:
