

## References

Here are some freely available online resources that cover topics related to constrained optimization

- "Introduction to Optimization" by Prof. **Dimitri Bertsekas**.
- "Convex Optimization" by **Stephen Boyd and Lieven Vandenberghe**
- Optimization -Constrained Optimization -**Xiaojing Ye**, Department of Mathematics & Statistics, Georgia State University.
- Optimization Techniques in Finance- Constraint optimization and Lagrange multipliers, **Andrew Lesniewski**, Baruch College, New York
- Optimization by Vector Space Methods" by **David G. Luenberger**
- Optimisation sous contrainte, **Laurent Gillopede**, Laboratoire de mathématiques Jean Leray, Département de mathématiques, UFR Sciences et techniques, Université de Nantes
- Optimisation sous contraintes **Fabrice Rossi**
